PRESS RELEASE

At the event, Pembroke's Director and Founding Partner, Samuel Tang, delivered a keynote titled "Bridging the Far East and Middle East," highlighting the firm's strategic role in connecting investment opportunities between Asia and the Middle East. The presentation emphasized Pembroke's partnerships with Emirati collaborators to advance clean energy initiatives and responsible investments aligned with Environmental, Social, and Governance (ESG) principles.

Pembroke Capital Partners' approach combines capital deployment with knowledge sharing and innovation exchange to support the Middle East's transition to a low-carbon, socially responsible economy through impactful, long-term projects.

Pembroke continues to lead cross-border collaboration in green finance and technology across Hong Kong, the Middle East, Japan, and Southeast Asia. The company's participation at ESG Xchange 2025 reinforces its ongoing commitment to sustainable growth and the global green transition.
